# Partner for LNG and LPG

## dehonit® compressed wood for LNG and LPG thermal insulation for cryogenic pipe supports

### Features of dehonit®

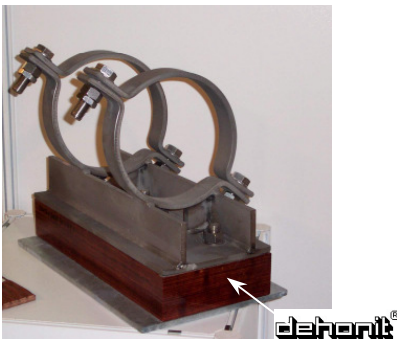

- Low specific weight
- High compressive strength
- Water resistant
- Low thermal conductivity
- Low coefficient of friction
- Temperature stability
- Low coefficient of linear expansion

### Typical applications for dehonit® are:

- tank supports
- trunnion shoe supports
- cold shoe supports
- base supports
- turbine base supports
- anchor supports
- washers made from dehonit®

Iroko supports

Deutsche Holzveredlung oHG is one of the world's largest producers of laminated compressed wood, which is sold under the brand names of dehonit®. With over 50 years of manufacturing experience we offer a comprehensive range of products for the cryogenic market.

dehonit® at woodside LNG

### dehonit® is approved and certified by the following classification societies:

- GL Germanischer Lloyd
- BV Bureau Veritas
- DNV Det Norske Veritas
- DIN ISO 9001:2001

Our application engineers will be pleased to advise you. Please do not hesitate to contact us. Detailed technical data upon request.
